SUMMARY OF SERVICES

- Alternative Dispute Resolution – mediation and arbitration
- Consulting in dispute resolution
- Workplace training in conflict resolution

As an experienced attorney, mediator, arbitrator, and instructor, I help individuals and their organizations with complex business disputes as well as organizational and leadership conflicts, using a transformative, value-based model. My extensive background in serving businesses as an attorney for 42 years, and my full-time work providing mediation and arbitration services, provides me with the understanding to help in challenging situations. My background and experience allow me to help clients address the issues which are threatening their ability to lead their organizations and businesses, while also helping individuals repair and restore relationships necessary to reach a lasting resolution. My experience includes assisting individuals address difficult situations arising out of moral failure, sexual abuse, and serious relational misunderstandings in personal, marriage, family, and workplace relationships.

Simply finding a solution is not complete, if doing so occurs outside of the influence of your personal convictions and faith, or ignores the personal relationship connected to the challenge. I provide consulting services, which help businesses and organizations evaluate their existing culture of addressing changes and disagreements and resolve the presenting issues. I also help them develop long term plans to change their conflict resolution culture to one that allows individuals to transform damaged relationships into ones which use collaborative work to resolve their disputes and proactively improve their effectiveness. This service includes providing interactive training for leadership and managers to effectively help and guide their teams to apply resolution principles and skills that allow them to transform workplace conflicts into healthy relationships and productive teams.
